Domestic performance drivers

HIGHLIGHTS

- SA equities recovered some of the previous month's losses alongside international trends, with the FTSE/JSE All Share up +4.8% in June and +3.9% for the quarter;
- SA nominal bonds priced benign inflation and the likelihood of more accommodative monetary policy, ending the quarter up +3.7%;
- The property sector rebounded along with other interest rate sensitive sectors, delivering +4.5% for Q2.

LOW POINTS

- Although the new Ramaphosa cabinet was positively received, investors were disappointed by the lack of detail surrounding Eskom's restructure in the president's State of the Nation Address;
- Investor confidence was further undermined by the contradictory nature of the ANC's statements around the nationalisation of the SARB, calling into question the independence of the institution;
- Q1 GDP surprised, contracting 3.2%, the largest downturn in a decade. Moody's, the IMF and the SARB downgraded the 2019 growth forecast to 1%.

Global performance drivers

HIGHLIGHTS

- The global economy is going through a synchronised slowdown that has seen central banks pivot towards more accommodative monetary policy;
- Emerging markets also benefitted somewhat from the more bullish sentiment and the lower global interest rate outlook;
- Trade negotiations continue between the US and China but compromises from both sides will be necessary to reach an agreement;
- The Italian government reached a deal with the EU Commission over debt-reduction measures, thereby avoiding a fiscal crisis.

LOW POINTS

- In the UK, Theresa May was forced to resign after failing to deliver Brexit. The chances of a "no deal" or hard Brexit have risen substantially;
- With trade comprising a big chunk of Europe's GDP, the region is more broadly exposed to trade tensions, as current European growth weakness continues.;
- After a rise of +27% in Q1, the price of Brent crude oil weakened by 2.7% in Q2 on the back of slowing global growth concerns and rising US oil production.

POSITIVE CONTRIBUTORS THIS QUARTER

- SA bonds rallied on the more accommodative interest rate outlook globally and in SA. In Q2, the yield on the benchmark R186 bond fell from 8.6% to 8.1%, a significant move;
- The passive portion of the portfolio grew by +2.1% over the quarter, with its diversified nature limiting the downside experienced by the SA share market in May;
- The financial sector (+5.4%) had a strong performance during the quarter, as local banks (+9.7%) defied domestic market headwinds. Holdings in Standard Bank, First Rand and Nedbank contributed.

DETRACTORS THIS QUARTER

- Sasol's share price detracted (-22.0%) on the back of an announcement that its Lake Charles Chemicals Project (LCCP) would underdeliver on profitability and also cost more;
- British American Tobacco (-15.3%) declined during the period as fears related to low nicotine regulation in the US market resurfaced;
- The strong rand muted some of the gains from the rand hedge stocks in the portfolio.

Allan Gray was introduced on the 1st of October 2018.

Nedgroup Collective Investments (RF) Proprietary Limited is the company that is authorised in terms of the Collective Investment Schemes Control Act to administer the Nedgroup Investments unit trust portfolios. Unit trusts are generally medium to long term investments. The value of your investment may go down as well as up. Past performance is not necessarily a guide to future performance. Nedgroup Investments does not guarantee the performance of your investment and even if forecasts about the expected future performance are included you will carry the investment and market risk, which includes the possibility of losing capital. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. Certain unit trust funds may be subject to currency fluctuations due to its international exposure. Nedgroup Investments has the right to close unit trust funds to new investors in order to manage it more efficiently. A schedule of fees and charges and details of our awards are available on request from Nedgroup Investments. A fund of funds may only invest in other unit trust funds, that levy their own charges, which could result in a higher fee structure. Nedgroup Investment Advisors (Pty) Ltd (the 'Investment Manager') an authorised as a financial services provider under the Financial Advisory and Intermediary Services Act (FSP No. 1652), is the appointed Investment Manager of the Management Company.

Certain Nedgroup Investments unit trust portfolios include international assets, whereby a change in the exchange rates may cause the value of those investments to rise and fall. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressures and that in such circumstances a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed.
