Domestic performance drivers

HIGHLIGHTS

- The SA Reserve Bank acknowledged a contained inflationary backdrop and cut interest rates by 25bps in July, followed by a unanimous decision to keep rates unchanged in September.
- Moody's credit ratings agency provided a glimmer of hope as their stable outlook on South Africa remained unchanged.
- National Treasury released an Economic Policy Paper which sets out a blueprint for growth enhancing reforms over the short, medium and longer term.

LOW POINTS

- Emerging market assets bore the brunt of the global risk off environment, with SA bond and equity markets seeing net outflows over the quarter, putting pressure on the Rand.
- Provisional budget data for this tax year suggest underperformance in tax revenues, with expenditure (although largely contained) increasing due to additional support for struggling SOE's, SAA and Denel.
- The South African business confidence index (compiled by the Bureau for Economic Research) fell to a 20-year low in the third quarter.

Global performance drivers

HIGHLIGHTS

- US and China trade tensions eased in September, as both sides suggested progress was being made ahead of the formal resumption of talks in early October.
- Central banks continued to provide enough support for risk assets to rally and oscillate around historic highs, with both the US Federal Reserve and ECB cutting rates in September.
- The low interest rate beneficiaries and stable earners outperformed the cyclical areas. Utilities (+5.7%), Consumer Staples (+3.7%) and Real Estate (+3.0%) were the best performers.

LOW POINTS

- Economic data releases continued to point to slowing growth and a rising recessionary risks in a number of economies.
- The most significant area of weakness has been manufacturing. China and Germany have been particularly weak, with tariffs hurting Chinese exports and the poor performing autos undermining German manufacturing.
- Compared to other asset classes, commodities disappointed, led lower by Crude Oil (-6.6%) and Agriculture (-6.1%).

POSITIVE CONTRIBUTORS THIS QUARTER

- British American Tobacco (+14%) reported results in line with market expectations, which led to a share price rally after a long period of negative sentiment towards the tobacco companies.
- Defensive rand hedges, Reinet (+22%) and Anheuser-Busch Inbev (+16%), benefited from a weaker rand. In addition, Reinet's underlying investments (incl. British American Tobacco) performed well and Anheuser-Busch Inbev's corporate action to reduce gearing was well received by the market.
- Higher precious metal prices off a very low base significantly contributed to the performance Sibanye Gold (25%), and Northam Platinum (41%).

DETRACTORS THIS QUARTER

- Sasol (-28%) delayed the release of financial results on 16th August and 6th September, citing the need for more time to conclude their investigation into the budget overruns and delays of the Lake Charles Chemical Project (LCCP).
- Diversified miners BHP Billiton (-7%) and Anglo American (-8%) were hurt by a sharp decline in the Iron Ore price.
- RMB Holdings (-9%), Standard Bank (-9%) and FirstRand (-7%) performed in line with the Financials sector (-7%) as the market continues to price in a challenging environment for South African focused stocks.

Allan Gray was introduced on the 1st of October 2018.
